## BRITAIN'S NEW GOVERNMENT

### MEMBERS OF THE CABINET ANNOUNCED

**Conservative Press Admits that the New Premier has Made a Strong Combination and Liberals are Confident of Success**

London, Dec. 11.—The new British ministry is made up as follows: Prime Minister, Sir Henry Campbell-Bannerman; Chancellor of the Exchequer, Herbert Henry Asquith; Secretary of State for Home Affairs, Herbert John Gladstone; Foreign Affairs, Sir Edward Grey; Colonial Secretary, The Earl of Elgin; Secretary for War, Lord Haldane; Lord High Chancellor, Sir Robert Threlkeld; India, John Morley; Admiralty, Baron Tweedmouth; President of the Board of Trade, David Lloyd George; Local Government Board, John Burns; Secretary for Scotland, John Sinclair; Board of Agriculture, Earl Carrington; Postmaster-General, Sidney Charles Burton; Secretary for Ireland, James Bryce; Lord President of the Council, Earl of Crewe; Lord Privy Seal, Marquis of Ripon; Board of Education, Austen Chamberlain; Chancellor of the Duchy of Lancaster, Sir Henry Herbert Fowler. The following ministers

are not in the cabinet. The Lord Archbishop of Ireland, The Earl of Aberdeen; Lord Chancellor of Ireland, S. Walker; Commissioner of Works, Lewis Vernon Harcourt. Conservative morning papers are compelled to admit that Sir Henry Campbell-Bannerman has succeeded in forming a much stronger administration than had been thought possible. The Liberals are full of enthusiasm and they express conviction that such a cabinet will inspire confidence, both at home and abroad. The Conservative organs point out that the most enthusiastic home ruler John Morley, has been sent to the India office, where he will have little influence on internal politics. The rapid rise of John Burns from the workshop to the cabinet with a salary of \$10,000 a year is a unique feature. He will be the first labor member to have attained cabinet rank. Baron Tweedmouth will lead in the House of Lords.

## SCOTT WILL SWEEP SASKATCHEWAN

Regina, Dec. 11.—Everything points to a victory for the Scott Government, almost as sweeping as that which the Rutherford Government had in Alberta. Lately Mr. Haultain has come out directly opposed to separate schools, but it is a little too late in the day for him to take this stand, as before he arrived at it he faced every possible way upon the question, and his candidates, like their friends of Alberta have each got an idea of their own as to what should be done with the people's money so spent on the lawsuit. Premier Scott's position from the start has been straightforward and without equivocation. He declared at the start of the campaign for the present school system with no greater and no less privileges to separate schools than already existed in Saskatchewan and that position he has maintained throughout the whole campaign and his consistency and fairness have won

him friends every day. Nobody is misled by the "provincial rights" cry. It is a Tory fight under a very thin disguise and nobody is going to be fooled by it in the end. At least eighteen or twenty seats are certain for Scott. Haultain is trying to make a great deal of the Langevin matter and might have succeeded to some extent, had he not as usual gone too far. He accused Scott of forming a compact with the Archbishop, which accusation Scott was easily able to disprove, and the Premier's frequent challenges to Haultain to meet him on the platform and make good his charge have been ignored by the leader of the "provincial rights." The Tory newspapers and especially the "Regina Standard" have simply gone mad until every school boy laughs at them, so that their support of Haultain is about as useful as was that of the Calgary Herald to the recently deceased leader of the Opposition in Alberta.

## COMMISSION SITS TOMORROW

The sitting of the tariff commission will be held in the board of trade rooms tomorrow morning at 10 o'clock. The members of the party arrived in the city Saturday evening from the south and have spent the intervening time with old friends. In the party are Hon. W. S. Fielding, Hon. L. P. Bruden, Hon. W. Patterson, Hon. William Templeman, Geo. Simpson, R. A. Willard and R. B. Viets.

The work of this commission is along the general lines adopted by the government of getting the general consensus of opinion, together with all available information before undertaking any general reforms. The members of the commission are visiting all portions of Canada and are asking that all parties interested in a revision of the existing tariff, present their views and claims. Business columns and Ontario have been particularly canvassed. Manitoba was completed last week and with the exception of Edmonton, Prince Albert and Regina, the work in the west will be completed. From there the party will proceed to Quebec and the Maritime provinces, completing their work about the middle of January.

Up to date there has been a great variety in the requests made for alterations in the tariff. In Ontario the manufacturing industries ask for greater protection and cheaper raw material. In British Columbia the lumber manufacturers ask for more protection in the grain growing districts the farmers ask for cheaper timber and a removal of the duty on agricultural implements, while in the cattle country the breeders are asking that the stock of the West be protected from the importation of low grade and scrub stock from the south. The result is that a great mass of conflicting evidence has been collected from which the department will draft a revision of the tariff to be submitted at the next session of the house.

The prevailing tone of the requests of the western men, so far, has been a demand for a general reduction of the tariffs. Laboring as they are under the heavy transportation costs of the present day, from which there ap-

## TELEGRAPHIC

MR. CUSHING IN OTTAWA.  
Ottawa, Dec. 11.—Hon. W. H. Cushing, Minister of Public Works for Alberta is in the city. He will have an interview with Sir Wilfrid Laurier tomorrow on certain provincial matters and expects to leave for Toronto tomorrow night.

GALGARY GETS CHEAPER LIGHT  
Calgary, Dec. 10.—The price of lighting has been reduced by the Calgary Water Power Company. This is looked upon as the very first triumph of the new municipal electric light plant. The price of light as announced by the Calgary Water Power Company is the same as that of the city, which has already begun to furnish light.

The change that has been made is quite extensive. Heretofore the price of lighting by meter, when the bill did not exceed \$15 was 10 cents per unit net. To this was added the meter rate of from 25 to 50 cents per month. The new rate is to be 13.9 cents, with no meter rate. The rate upon bills from \$15 to \$25 has been reduced from 15 cents net to 11.5 net. The old rate upon bills from \$25 varied from 15 cents net to 12 cents net. The new rate will be 11.2 net.

No reduction has yet been announced for power. This is regarded as a victory for the new plant. The reduction will net the light-takers about \$9,000 a year.

The interest and sinking fund for the new plant amounts to less than half of that amount, so that if the plant should shut down the city would be gained by a large sum annually.

Of course the gain is for the light-takers. But light-takers are citizens and all citizens get the benefit indirectly of the cut in rates.

## VEGREVILLE

## Correspondence

Our cold weather has passed and mild beautiful weather has come again. Clement and son have moved into their new store building at the new town site. They have a fine building and intend to carry a heavy stock of general merchandise.

Abbott and Cole has moved their store building over and Mr. Morrison has taken it over. They are all doing business now in the thriving railroad town.

Our once thriving village of Vegreville looks dilapidated now. There is one store, one blacksmith shop and the hotel and post office left.

## SURGEON NOTES

## Correspondence

Rev. F. J. Higgins, B.A., of Airdrie, lately pastor of St. Augustine's church, was married on Wednesday night, Dec. 7, to Miss Cora P., only daughter of Joseph Rye of Daugh. The ceremony was performed at the home of the bride by Rev. W. J. Crowley in the presence of a few friends. The bride who was tastefully crowned in white silk with veil and wreath of orange blossoms was supported by Miss Phoebe Long, while Lawrence Rye her brother was groomsmen. The numerous and costly presents received by the bride showed the high esteem in which the contracting parties are held by their friends both here and in the east. After partaking of a sumptuous wedding dinner, the happy couple left for the south for a short trip. They will take up their residence in Airdrie where Mr. Higgins is now pastor of the Methodist church. Work has begun on the new parsonage just west of Bethel church, where in preparation for early building in the spring a cellar is being dug.

The Ladies Aid are preparing a fine program and supper for an entertainment to be held in the church on Thursday, Dec. 28.

## JOE COMES TO BALFOUR'S DEFENCE.

London, Dec. 8.—Hon. Joseph Chamberlain tonight, in addressing a crowded meeting at the Oxford town hall of the university tariff reform league said that no man had been more unscrupulously calumniated and misrepresented than Balfour and nothing in the slightest degree had affected their personal friendship or their political relations. He (Chamberlain) never had had the slightest confidence that the country was going to be saved by such a hermaphrodite government as the Liberal Imperialists. The league name of home rule was to be abandoned, but the policy would be the same and there was to be home rule by instalment on the hire system. He had always expected this deal with Sir Campbell-Bannerman and the Redmond leaders of the Little England party, who chattered in the House when disaster was reported to have befallen the soldiers of the queen in the late Boer war.

This change they were asked to make was one which went down to the fundamental position of the parties of this country.

## ALBERTA PUBLIC WORKS

Free Press: Hon. W. H. Cushing, minister of public works in the Alberta cabinet, arrived in the city today accompanied by Senator Ross, and is a guest at the Empire hotel. Mr. Cushing is a member of the firm of Cushing Bros. Ltd., sash and door manufacturers, the firm having branches in Edmonton and Regina, in addition to the plant at Calgary. The new minister somewhat resembles Premier Rutherford of the Alberta cabinet, in build and in manner. He is held in high esteem as a business and public man in the west, as witnessed by his sensational defeat in Calgary of R. B. Bennett, leader of the opposition. When seen at the Empire by a Free Press reporter he spoke of the important work to be done by the department of which he is the head.

"There is no special matter relating to the new province which has brought me east at the present time," said the minister. "I am spending a day or two in Winnipeg to see a number of personal friends here. In the east I will spend some time in Toronto and Ottawa, and will also go east to New York city."

"We have already begun work in the administration of affairs in the department of public works in Alberta. The first important matter coming before us was the question of rebuilding the Bow marsh bridge. This bridge was built in the first place by the Territorial government, the city of Calgary and a private company. It is now falling to pieces, and has been for some time in a state of decay. The new structure will be of steel on concrete piers and will cost in the neighborhood of \$50,000."

"We will also build a normal school for the province. The school, it is expected, will cost \$60,000 or \$70,000; the premier favors the location of the building in the south and there is little doubt it will be built there."

"A very extensive work will need to be done in the immediate future. Water Main 51-2 miles 56,000 71-2 m. in the matter of the construction of government roads. The government will build the main highway bridges which are needed, and the balance of the work will be done by the local municipalities."

"Do you consider the question of the location of the capital as settled?" "The matter of the location of the capital will be settled by the legislature. It will probably prove a difficult matter to change the location now. We in Calgary, believe that we scarcely got a fair deal in the distribution of seats. There are 13 ridings north and 12 south of Red Deer. Red Deer itself being included on this count with the south. Even if we got one vote from the north it would not change the location and it is said that it might be difficult to get a unanimous vote from the eleven southern members in favor of a change."

"I presume the province has become quite quiet since the election?" "Yes, the excitement has disappeared and affairs have become normal again. We had an interesting time for two months and the result was very satisfactory. Everything is going on as usual now and business was never better in Alberta."

"The city of Calgary is making very rapid advances, quite as rapid proportionately as Winnipeg. The population has doubled the past three years, and is still growing rapidly. The new cement works will be of great value to the city, and other interests are also developing extensively."

## THE COMING CANADA

(Toronto Star)

With a present population of six million and an enormous country, Canada moves towards a future that even the most hopeful person living is likely to greatly underestimate. Only within the past five years has it become known that vast regions which were supposed to be useless for the general purposes of mankind are really rich in promise and ready to support great populations whenever called upon to do so. There are men in Toronto, who, after going through the north country, declare that one day James Bay will be the front door to this Province, and that old Ontario between the lakes is destined to be in time "the interior," or "the back country." They say Hudson's Bay will be navigated just as soon as it is necessary to do so, and that between here and there lies an immense region suitable to settlement. No more is heard about British Columbia being "a sea of mountains," and only the very old, with hopelessly confirmed habits of speech, refer to the population of this country as "a fringe along the frontier." Today a new railway is being begun across the continent three hundred miles north of the C. P. R. and yet there is a vast extent of wheat country still north of that new line. Gold was discovered in the Klondike. Up north a blacksmith threw his hammer at a fox and missed it, and the chance shot showed the presence of ore at Conalt, and made valuable land worth millions inside of six months. There are lots of surprises in this great country awaiting those who throw hammers and note results, or those not too timid to pitch camp in unexplored places.

In 1823 Charles Godrich published a history of the United States. At that time the Republic was about the same age as the Dominion now; its population was ten million; ours is six. In the closing pages of his history Godrich indulged in some remarks, saying: "Upon concluding this history of our country, we can scarcely refrain from asking who of our ancestors anticipated results from their toil so stupendous as those which be behold? Who of them predicted, while they were laying up the names of the forests, for a shelter, that they were commencing an empire, which, within two centuries, would extend thousands of miles and embrace within its bosom ten millions of the human race?"

Not one of them. And Godrich, sitting in his place of vantage, looking out over a population of ten millions after two centuries of settlement, was as poor a predictor as any of his ancestors, and was wholly unable to dream that the forests of a quarter of a century the ten millions would have increased to twenty millions of the human race. Canada has a country equally large, aimed and a use for population almost equally urgent and attractive, whereas all the ways and means whereby the population of other world shifts to where there is a demand for it are greater by far now than during the half century when the United States was filling up. The Republic drew people from all nations. Like it or not, Canada will do the same. They cannot be kept out, and that we think it desirable that they should be excluded is, no doubt, largely a racial prejudice. Russia is in upheaval, and her turbulent people will never again fit back into place. Hundreds of thousands will spill over the rim of whom great numbers will naturally come to Canada. Our climate will not refuse, but invite them. England and Germany are over-populated. News and faster than the grain we export, and every peasant from Europe who prospers in the West is the pioneer of a colony from his home land. Moreover, many of the people of the United States, having been for three or four generations engaged in taming wilderness into Territories and Territories into States, know little else and pour into Canada in obedience to their instincts. Through that door a great population is sure to come.

Any definite prophecy as to the millions that will inhabit Canada at any future date would be valueless, but there is reason for entertaining great expectations.

## EDISON NEWS

Edison is always awake. People here are mostly contented and happy with bits filled with grain and vegetables.

S. A. Solid is at a sheep ranch in Montana.

Charlie Edison is working for a logging camp somewhere on the Landing trail.

Al Williams is in town, and Irvine Armstrong goes after Christmas to work in a camp.

The Edison boys are hurrying their new barn to completion.

Three years ago, two young men, Arthur Edison and Jim Carl, celebrated Christmas in Edison's house. They were alone and on short rations. The next year 78 persons gathered there at a Christmas tree. The year following 90 persons were present at the tree in the same house, and this year our new school house will not hold all the people. So we are to have one or two trees beside the one in Edison's house.

W. M. Garrison has completed another good barn.

Edison, Meidrick has a fine bunch of young cattle he has recently brought in from near town. Charles Nelson also brought in several calves. The first time he came from town.

I. P. Williams is selling his personal property and intends going into town to get a future.

## THE SUNLIGHT WAY

RUB ON SUNLIGHT SOAP

LEAVE 30 TO 60 MINUTES

RINSE WELL

Sunlight Soap is better than other soaps, but is best when used in the Sunlight way (follow directions).

Hard rubbing and boiling are things of the past in homes where Sunlight Soap is used as directed.

Sunlight Soap will not injure even the damnest fabric or the hands, and the clothes will be perfectly white, woolens soft and fluffy.

The reason for this is because Sunlight Soap is absolutely pure, contains no injurious chemicals—indeed, nothing but the active, cleansing, dirt-removing properties of soap that is nothing but soap.

Equally good with hard or soft water.

**YOUR MONEY REFUNDED** by the dealer from whom you buy Sunlight Soap if you find any cause for complaint.

## CANADIAN SOLDIER HONOURED

Ottawa, Dec. 11.—Lieut. Col. F. Gourdeau, Deputy Minister of Marine and Fisheries has been officially informed by the consul of France in Montreal that the President of the French republic has been pleased to confer upon him the high distinction of the Cross of the Legion of Honor in recognition of the many services rendered on different occasions, notably his connection with the Paris exposition in 1900 and the repatriation of the French wrecked fishermen on Sable Island. J. K. MacDonald, general manager of the Confederation Life Insurance Co., addressed the Canadian Club here Saturday afternoon. He spoke of the standards in New York and said that there would be no distrust about Canadian companies which were well inspected by the Government. Life insurance was the most stable of institutions because it rested on a scientific basis.

## CATTLE PRICES

Toronto, Dec. 8.—A heavy run of stock was offered yesterday. Trade is brisk and the demand good with prices maintained. Export trade is dull; good to medium, \$3.50 to \$4.10. Owing to the open weather few cattle will feed in stalls, being left too

long on the grass; few will be in condition for Christmas trade. Montreal, Dec. 8.—Cattle prices are steady. The finest \$4.25, common \$3 to \$4.

**The Grand Trunk Pacific Railway**  
Offers a Prize of \$250.00 To The Person Submitting Name That Will Be Adopted FOR THE NEW PACIFIC COAST CITY

THE management of the Grand Trunk Pacific Railway have decided to offer a prize of \$250.00 cash for a name that will be in every way appropriate and suitable for the new city that will come into existence at the Pacific Coast terminus of Canada's new Transcontinental Railway. This will give any one on opportunity of actually securing this handsome prize, and the honor of naming a city whose birth is a realization of a new era in Canada's twentieth century prosperity. The rules governing the competition are as follows:

## A COMPETITION FOR THINKERS

Names to be not more than three syllables or contain more than ten letters, and to be purely Canadian, preferably suggested by British Columbia, and not to conflict with other names of Towns or Cities now existing in Canada.

The paper not larger than eight by ten inches, write in ink on one side of paper only. Each competitor allowed to submit three names, on separate sheets, one name to appear on each sheet.

Accompanying each name, a short article of not less than fifty words, not more than three hundred words, explaining the title.

Names of a competitive nature, with full post office address, to be signed at bottom of sheet; names to be forwarded addressed, "Pacific Coast Terminus Contest, Grand Trunk Pacific Railway, Montreal, Canada."

Competition will close at noon, December 15th, 1905.

As soon as competition has been decided and name chosen, the name of successful competitor will be announced through the columns of the daily newspapers.

To give the name chosen has been selected by more than one competitor, then the said victory articles will be judged on their merits and decision rendered accordingly.

## ESTIMATES OF THE VOTE

Alfred W. A. Griesbach has prepared some interesting statistics and estimates of the voting in municipal elections for 1961 and 1965 as follows:

Voter's list, 1961..... 12,500

Total names on list..... 12,500

Total possible vote for aldermen, 8 votes to voter..... 10,000

Total votes polled..... 6,255

Percentage..... 62.55

Voter's list, 1965..... 13,500

Total names on list..... 13,500

Showing an increase from last year, the cent..... 50

Total possible votes for aldermen, 8 votes to voter, 7,800.

Votes to be cast on last year's percentage, 4,836.

Average vote for candidate to be elected, 403.

For the majority, total names on list 1965, 1966; probable vote is 12,500 on last year's percentage. There are two candidates for mayor, and 630 votes would be required to be elected.

**TENDERS FOR A PERMIT TO CUT TIMBER ON SCHOOL LAND IN THE PROVINCE OF ALBERTA**

SEALED TENDERS addressed to the undersigned and marked on the envelope "Tender for Timber Berth No. 23, School Lands," will be received at this department until noon on Tuesday, the second day of January, 1967, for a permit to cut timber on Berth No. 23, comprising School Section 11, in Township 50, Range 4, west of the fifth Principal Meridian.

The regulations under which a permit will be issued, also printed form of tender, may be obtained at this department, or the office of the Crown Timber Agent at Edmonton.

Each tender must be accompanied by an accepted cheque on a chartered bank in favour of the Deputy Minister of the Interior, for the amount of the bonus which the applicant is prepared to pay for a permit in addition to the regular dues.

It will be necessary for the person whose tender is accepted, to obtain a permit within sixty days from the second day of January, 1967, and to pay twenty per cent. of the dues on the timber to be cut under such permit, otherwise the berth will be cancelled.

No tender by telegraph will be entertained.

Rental at license rates will be charged if the berth is not operated continuously.

FERLEY G. KEYES,  
Secretary,  
Department of the Interior,  
Ottawa, 27th November, 1966.

## STRATHCONA NEWS

Interesting Items From Edmonton's Sister City.

Strathcona, Dec. 11.—The well which supplies water for the engine at the Edmonton Milling Co. here, caved in lately, fortunately in the night when no one was about. This collapse of the well is the cause of the temporary cessation of business. Mr. Armstrong and his staff are busily engaged and will soon have the well in working order, when business will be at once resumed.

Messrs. Purcell and Foote, contractors, leave tomorrow for their former home in Ontario. They will be absent for two or three months. They have succeeded well in the West and have to desire to remain in the East.

Mr. Alabane has lately returned from a hunting expedition.

Mr. C. Bissett had a close call the other day while on his wheel. A runaway team dashed into him from behind giving him no time to get out of the way, as he only saw them when they were a few feet away. Result, a broken wheel and a badly cut and bruised rider.

Foreman Manchester has a few men at work on the water works, getting connections laid for hydrants, &c.

The building next door to Thompson's drug store, on Whyte avenue is being repaired and put into shape for business. It is said that a stock of furniture will soon be on sale there.

## NEW CEMENT ELEVATOR

Strathcona, Dec. 9.—The cement elevator and steel tower, built by the Brackman-Ker Milling Co., is practically completed. The tower is of steel 6 1/2 feet square and 112 feet high. The elevator is 82 feet to rim and 88 feet to peak and has a capacity of 100,000 bushels. It is 40 feet in diameter outside measure and 39 feet inside as the walls are six inches thick. Five hundred and sixty barrels of cement, eleven hundred and twenty barrels of sand and sixteen hundred and eighty barrels of gravel were used in the construction. Three-quarter inch iron rods wind spirally around the centre of the wall for the first 40 feet, 1-2 in. iron rods in the same way for the next 30 feet and then seven-eighths in. iron rods from 70 feet to the top. These spiral iron rods are secured to upright half-inch straight iron rods, 12 inches apart in the centre of the wall from base to summit. The latest improved, rope-driven machinery is installed in a subterranean passage between the mill and elevator and is capable of discharging 2,000 bushels per hour into the mill. The design of the structure and accessories is that of Elmer Heiderich, Chicago. The work was commenced September 15 and cost about \$18,000. The Brackman-Ker Co. are to be congratulated for their business enterprise and the citizens of Strathcona, ought to be proud of this unique office—the first cement elevator in our great Dominion.
